Čupko depilacijske trake na efikasan  
način uklanjaju dlačice na licu,  
pazušnom i bikini području.

Upotreba:

1. Trijajte traku cca 20 sekundi između  
dlanova, kako bi se zagrijala.
2. Razdvojite traku jednu od druge.
3. Stavite traku na željeno mjesto za  
depilaciju i pritisnite ju da bolje prilagne  
uz kožu.
4. Naglim pokretom potegnite u smjeru  
suprotnom od rasta dlačica. Što je brži  
pokret, manja će biti bol.
5. Višak voska odstranite uljnom  
maramicom (priloženo u kutiji).
6. Nakon depilacije kožu namažite  
Čupko aloe vera gelom (priloženo u  
kutiji).

Mjere opreza: DRŽATI IZVAN DOHVATA  
DJECE! Ne koristiti proizvod ako imate  
proširene vene, madeže, posjekotine ili  
nadmaznu kožu. Ako nakon depilacije  
crvenilo ne nestane nakon 24 sata,  
potražite savjet liječnika.

The wax strips are suitable for use  
on face, underarms and bikini area.

Directions:

1. Warm the wax strip by placing it  
between your palms for 20 seconds.
2. Peel the double-sided wax strip  
apart.
3. Apply the strips onto the skin and  
smooth firmly.
4. In one swift movement remove  
the strip against the direction of hair  
growth. The quicker the movement,  
the lesser the pain.
5. Use after waxing oil sachets to  
remove any remaining wax residues.
6. After waxing apply Čupko aloe  
vera gel.

Attention: KEEP OUT OF REACH OF  
CHILDREN! Do not use on varicose  
veins, beauty spots, moles, cuts or  
irritated skin. If the symptoms of  
redness do not disappear within 24  
hours seek medical attention.
