

MATERIAL SAFETY DATA SHEET

Safety Data Sheet in compliance with Regul. (EC) n. 878/2020

Section 1 - Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Supplier Code SF2047
Product name UNGARO COSMIC EDP

1.2. Relevant identified uses of the substance or mixture and uses advised against

Description/Uses Alcoholic perfumery
Adverse Uses None known.

1.3. Details of the supplier of the safety data sheet

COSMINT S.p.A.
Via XXV Aprile n.15
22077 OLGiate COMASCO (CO - ITALY)

Competent person for the Safety Data Sheet (e.mail): msds@cosmint.it
For info: +39 031 996711 (h 08.30 / 13.00 - 14.00 / 17.00)

1.4. Emergency telephone number (Italy)

0668593726 - "Hos. Bambino Gesù" Department of Emergency and DEA Acceptance, Rome
800183459 - Hos. univ. Foggia, Foggia
0815453333 - Hos. "A. Cardarelli", Naples
0649978000 - Policlinico "Umberto I", Rome
063054343 - "A. Gemelli" Polyclinic, Rome
0557947819 - Company "Careggi" U.O. Medical Toxicology, Florence
038224444 - National Center for Toxicological Information, Pavia
0266101029 - Hos. Niguarda Ca 'Granda, Milan,
800883300 - Papa Giovanni XXII Hospital, Bergamo
800011858 - Integrated Hospital, Verona,
112 - Single European number for emergencies (available 24h / 24h)

Section 2 - Hazards identification

2.1. Classification of the substance or mixture

Classification according to Regulation (EC) n. 1272/2008:

- H225 - Flam. Liq.2
- H319 - Eye Irrit. 2
- H317 - Skin Sens. 1B
- H411 - Aquatic Chronic 2

2.2. Label elements

Classification according to Regulation (EC) n. 1272/2008:

Warning: DANGER

Hazards identification

H225	Flammable liquid and vapor.
H319	Cause serious eyes irritation.
H317	May cause an allergic skin reaction.
H411	Toxic to aquatic life with long lasting effects.

Precautionary advice

P210	Keep away from heat. — No smoking.
P233	Keep the container tightly closed.
P261	Avoid breathing vapors.
P273	Do not disperse in the environment.
P280	Wear gloves and protect your eyes.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P370 + P378	In case of fire: Use foam, dry chemical, carbon dioxide for extinction.

Hazardous components which must be listed on the label:

- 1-(1,2,3,4,5,6,7,8-octahydro-2,3,8,8-tetramethyl-2-naphthyl) ethan-1-one
- 3,7-dimethylnona-1,6-dien-3-ol
- 7-hydroxycitronellal
- (R)-p-mentha-1,8-diene d-limonene
- 2-hexyl-3-phenyl-2- propenal
- Benzyl salicylate
- Reaction mass of cis-4-(isopropyl) cyclohexanemethanol
- Citronellol
- Methyl 2,4-dihydroxy-3,6 dimethylbenzoate
- α -methyl-1,3-benzodioxole-5 propionaldehyde
- 3-methyl-4-(2,6,6-trimethyl-2-cyclohexen-1-yl)-3-buten-2-one
- Coumarin
- Piperonal
- Pin-2(3)-ene
- 3-methyl-4-(2,6,6-trimethyl-2-cyclohexen-1-yl)-3-buten-2-one
- Geraniol

- Geranyl acetate
- 3-(4-tert-butylphenyl) propionaldehyde
- 3-p-cumenyl-2-methylpropionaldehyde

2.3. Other hazards

This mixture does not contain any Persistent, bioaccumulative and toxic substances in concentration above 0,1%. The mixture does not contain any very persistent and very bioaccumulative substances (vPvB) in concentration above 0,1%. Based on the information received from the manufacturers of the substances contained in the product, the preparation does not contain substances considered to be endocrine disruptors.

Section 3 – Composition/information on ingredients

3.1. Substances

Not applicable.

3.2. Mixtures

Section 4 - First aid measures

4.1. Description of first aid measures

Dust inhalation	Not applicable.
Gases/vapors inhalation	Take affected person away from the polluted area.
Skin contact	In case of complaint, wash with water and soap. In case of skin irritation, consult a doctor.
Eye contact	Flush eyes carefully with plenty of water for several minutes, keeping eyelid wide open. If it's easy to do, remove contact lenses and keep on washing.
Ingestion	Rinse out mouth and give water in small sips to drink. DO NOT induce vomiting unless directed by a physician or poison center. Never give anything by mouth to an unconscious person. Consult a physician if necessary.

4.2. Most important symptoms and effects, both acute and delayed

Dust inhalation	No effects.
Gases/vapors inhalation	May cause irritation of the respiratory tract.
Skin contact	May causes skin irritation.
Eye contact	Direct contact with the pure substance cause irritation/redness.
Ingestion	May cause abdominal pain and irritation of internal tissues.

4.3. Indication of any immediate medical attention and special treatment needed

No additional information.

Section 5 - Firefighting measures

5.1. Extinguishing media

The product is highly flammable. If necessary, use foam, dry chemical, carbon dioxide. For any leaks and spills, if not caught fire, it is possible to use nebulized water, to disperse the flammable vapors and protect the people involved in stopping the leakage.

5.2. Special hazards arising from the substance or mixture

An excess pressure may form into the containers exposed to fire, and this may cause risk of explosion. Do not breathe combustion products.

5.3. Advice for firefighters

Use suitable Personal Protective Equipment (breathing apparatus, safety hat, safety spectacles, fireproof suit, gloves, and boots).

Additional prescription

Operate in accordance with the Internal Emergency Plan. Remove all ignition sources. In case of fire, cool down the containers and storage tanks. Avoid the spilling in water of the products used for fire extinction.

Section 6 - Accidental release measures

6.1. Personal precautions, protective equipment, and emergency procedures

If safe, try to stop leak. Eliminate all sources of ignition. Avoid walking on the liquid to prevent from slipping. Wear suitable protective equipment (including personal protective equipment referred to in section 8 of the safety data sheet) to prevent any contamination of skin, eyes and personal clothing. These prescriptions are valid both for workers and for emergency actions.

6.2. Environmental precautions

Prevent dispersal of spilled product, runoff and contact with soil, waterways, drains and sewers.

6.3. Methods and material for containment and cleaning up

Collect in suitable containers. Dispose in accordance with local regulations. Clean up affected area.

6.4. Reference to other sections

See Section 8 for information about Personal Protective Equipment.

See Section 13 for waste disposal.

Section 7 - Handling and storage

7.1. Precautions for safe handling

Keep away from heat, sparks, and open flames. Do not smoke and do not use matches or lighters. Vapors may ignite and explode. Therefore, it is necessary to avoid accumulation by keeping the windows and doors open and ensuring a good ventilation. Without adequate

ventilation, the vapors may accumulate on the ground and, if triggered off, they could even ignite at a distance, with the risk of flashback. Keep the product away from your face to avoid contact with eyes. Do not keep in contact the product with the skin for a long time. Wash hands right after handling the product.

7.2. Conditions for safe storage, including any incompatibilities

It is better to store away from direct sun, in airy, cool, and dry places. Avoid heat, radiation, static electricity and contact with food. Preferably, do not store in places with temperature higher than 20°C, for a long time. Store with care, to avoid risks due to instability or breaking of the packaged products. Keep absorbent material at disposal nearby the product.

7.3. Specific end use(s)

No additional prescription.

Section 8 - Exposure controls/personal protection

8.1. Control parameters

Components with limit values that require monitoring at the workplace:
No additional prescription.

Other control parameters or information

Ethanol

CAS Number: 64-17-5
EC Number: 200-578-6

DNEL

Long-term systemic effects (Inhalation): 950 mg/m³
Short-term local effects (Inhalation): 1900 mg/m³
Long-term systemic effects (Dermal): 343 mg/m³

8.2. Exposure controls

Appropriate engineering controls

No additional prescription.

Individual protection measures, such as personal protective equipment

Eye / face protection	Wear safety goggles (EN 166) with side screens.
Hand Protection	If necessary, wear protective gloves (EN 374) in the following materials: natural rubber (NR), PVC, nitrile rubber (NBR).
Skin protection	No additional prescriptions.
Respiratory protection	Under normal working conditions no protective equipment are required. Do not sniff the product. If necessary, wear a mask with a Type-A filter. Choose the class (1, 2 or 3) according to the limit concentration of use.
Thermal hazards	No additional prescriptions.

Environmental exposure controls

Observe operating instructions; do not disperse into drains or into the environment; manage waste and empty containers according to local regulations (see Section 13).

Section 9 - Physical and chemical properties**9.1. Information on basic physical and chemical properties**

Physical state:	Liquid
Odour:	Characteristic
Color:	Orange
pH:	No data available
Melting-point/freezing point:	No data available
Initial boiling point, boiling range:	No data available
Flash point:	19°C
Flammability (Solid, gas):	Not self- flammable product
Upper/lower flammability or expl. limits:	No data available
Vapor pressure:	No data available
Vapor density:	No data available
Density:	0.850 – 0.859 g/cm ³
Solubility(ies):	No data available
Partition coefficient: n-octanol/water:	No data available
Auto-ignition temperature:	No data available
Decomposition temperature:	No data available
Particle characteristics:	No data available
Viscosity:	No data available
COV:	≅ 78 %

9.2. Other information

No additional information.

Section 10 – Stability and Reactivity

Under normal conditions of use, handling and storage, the mixture remains stable (see Section 7). For this reason, under application, according to correct methods of use, it does not result any dangers of instability.

10.1. Reactivity

Stable under normal conditions.

10.2. Chemical stability

Stable under normal conditions.

10.3. Possibility of hazardous reactions

Vapors can form explosive mixtures with air.

ETHANOL: risk of explosion for contact with: alkali metals, alkali oxides, calcium hypochlorite, sulfur monofluoride, acetic anhydride (with acids), concentrated hydrogen peroxide, perchlorates, perchloric acid, perchloronitrile, mercury nitrate, nitric acid, silver and nitric acid, silver nitrate, silver nitrate and ammonia, silver oxide and ammonia, strong oxidizing agents, nitrogen dioxide. May react with: bromine acetylene, chlorine acetylene, bromine trifluoride, chromium trioxide, cromyl chloride, oxiranes, fluorine, potassium tert-butoxide, lithium hydride, phosphorus trioxide, black platinum, zirconium chloride (IV), iodide of zirconium (IV). Form explosive mixtures with air.

10.4. Conditions to avoid

Avoid overheating. Avoid the accumulation of electrostatic charges. Avoid any source of ignition.

10.5. Incompatible materials

No additional information.

10.6. Hazardous decomposition products

Formation of toxic gases is possible during heating or in case of fire.

Section 11 - Toxicological information

11.1. Information on the hazard classes defined in the Regulation (EEC(EU) No. 1272/2008

No specific data are available for the mixture. The data available for the individual components are reported.

Ethanol

CAS Number: 64-17-5
EC Number: 200-578-6

Values LD50/LC50 relevant for classification

- INHALATION – Rat
Value: 20 000 ppm
- ORAL – Rat
Value: 3 400 mg/kg
- DERMAL - Rabbit
Value: > 20 000 mg/kg

(R)-p-mentha-1,8-diene d-limonene

CAS Number: 5989-27-5
EC Number: 227-813-5

Values LD50/LC50 relevant for classification

- INHALATION – Rat
Value: --
- ORAL – Rat
Value: 5 600 mg/kg
- DERMAL - Rabbit
Value: 5 000

Coumarin

CAS Number: 91-64-5
EC Number: 202-086-7

Values LD50/LC50 relevant for classification

- INHALATION – Rat
Value: --
- ORAL – Rat
Value: 500 mg/kg
- DERMAL - Rabbit
Value: --

Pentyl salicylate

CAS Number: 2050-08-0
EC Number: 218-080-2

Values LD50/LC50 relevant for classification

- INHALATION – Rat
Value: --
- ORAL – Rat
Value: 500 mg/kg
- DERMAL - Rabbit
Value: --

Pin-2(3)-ene

CAS Number: 80-56-8

EC Number: 201-291-9

Values LD50/LC50 relevant for classification

- INHALATION – Rat

Value: --

- ORAL – Rat

Value: 500 mg/kg

- DERMAL - Rabbit

Value: --

2-Methylpropan-2-ol

CAS Number: 75-65-0

EC Number: 200-889-7

Values LD50/LC50 relevant for classification

- INHALATION – Rat

Value: 1.5 mg/l

- ORAL – Rat

Value: 2 743 mg/kg

- DERMAL - Rabbit

Value: > 2 000 mg/kg

Information about presumable ways of exposure

The mixture is not toxic to any route of exposure (oral/cutaneous/inhalation).

Symptoms related to the physical, chemical and toxicological

No further information.

Immediate, delayed and chronic effects resulting from short and long-term exposures

No further information.

Interactive effects

No further information.

Lack of specific data

No further information.

Other information

No further information.

11.2. Information on other hazards

No further information.

Section 12 - Ecological information

12.1. Toxicity

No specific data are available for the mixture. The data available for the individual components are reported.

Ethanol

CAS Number: 64-17-5
EC Number: 200-578-6

EC₅₀ / 24 h – 23.9 g/l (Artemia salina)
EC₅₀ / 48 h – 18 g/l (Chlamydomonas eugametos)
EC₅₀ / 48 h – 12.34 g/l (Daphnia Magna)
EC₅₀ / 48 h – 5.012 g/l (Ceriodaphnia dubia)
EC₅₀ / 48 h – 857 mg/l (Artemia salina nauplii)
EC₁₀ / 72 h – 11.5 mg/l (Chlorella vulgaris)
EC₅₀ / 72 h – 275 mg/l (Chlorella vulgaris)
EC₁₀ / 72 h – 0.44 g/l (Selenastrum capricornutum)
EC₅₀ / 72 h – 12.9 g/l (Selenastrum capricornutum)
LC₅₀ / 96 h – 13 g/l (Salmo gairdneri)
LC₅₀ / 96 h – 13.5, 14.2 and 15.3 g/l (Pimephales promelas)
NOEC / 21 d – >10 mg/l (Daphnia magna)
NOEC / 10 d – 79 mg/l (Palaemonetes pugio)
NOEC / 5 d – 3.24 g/l (Skeletonema costatum)

2-Methylpropan-2-ol

CAS Number: 75-65-0
EC Number: 200-889-7

EC₅₀ / 48 h – 933 mg/l (Daphnia Magna)
EC₅₀ / 72 h – > 1 000 mg/l (Desmodesmos subcapitata)

12.2. Persistence and degradability

Ethanol (CAS: 64-17-5)

Easily biodegradable (BOD₂₀=84%)

12.3. Bioaccumulative potential

Ethanol (CAS: 64-17-5)

Based on the n-octanol/water partition coefficient, ethanol has a low bioaccumulation content.

12.4. Mobility in soil

Ethanol (CAS: 64-17-5)

If released in air or water the product disperses rapidly. If released to the ground, it tends to evaporate quickly. The product is volatile and soluble in water. If released into the environment it will restart in air and water. The product is poorly absorbed in soil and sediment.

12.5. Results of PBT and vPvB assessment

No PBT/vPvB ingredient is known in the mixture with a concentration >0,1% w/w.

12.6. Properties of interference with the endocrine system

No further information.

Section 13 - Disposal considerations

13.1. Waste treatment methods

For waste disposal apply the same safety principles as for the mixture (see sections 7 e 8).
Dispose as required by national or local regulations.

Section 14 - Transport information

Validity of classification: ADR, RID, ADN, IATA and IMDG

14.1. UN number or ID number

UN 1266

14.2. UN proper shipping name

PERFUMERY PRODUCTS

14.3. Transport hazard class(es): 3

14.4. Packing group: II

14.5. Environmental hazards

DANGEROUS FOR THE ENVIRONMENT

14.6. Special precautions for user

No further information.

14.7. Shipping in bulk in accordance with IMO acts

Not evaluated.

Section 15 - Regulatory information

15.1. Safety, health, and environmental regulations / legislation specific for the substance or mixture

15.2. Chemical Safety Assessment

A chemical safety assessment has not been carried out.

Section 16: Other information

This Safety Data Sheet supersedes any previous edition.

The information provided in this safety data sheet is correct to our best knowledge of the product at the time of publication and is based on information obtained from the manufacturers of the individual substances. This information is provided with the purpose of allowing the use, storage, transportation, and disposal of the product in the most correct and safe way. This information should not be considered a guarantee or a specific product quality. They refer only to the material indicated (Section 1) and are not valid for combination with other materials or processes not listed in the Safety Data Sheet. The classification of the preparation was carried out according to the principles described in the CLP regulation (EC) no. 1272/2008.

The end user must ensure the suitability and completeness of the information in relation to the own use.
