

**Ingredient data sheet**  
**according to Regulation (EC) № 907/2006**  
**Annex VII (article C and D)**

**Name of product: ALVINA DELUXE PERFUME INTENSE Magnetic**

**Fabric Softener**

**Manufacturer: Mexon LTD**

**Barcode: 3801003002902**

**Ingredients:**

|                                                                                                        |
|--------------------------------------------------------------------------------------------------------|
| 1. Water                                                                                               |
| 2. Quaternary ammonium compounds, di(hydrogenated tallowalkyl)<br>2-hydroxyethyl methyl, methosulfates |
| 3. Perfume                                                                                             |
| 4. Isopropyl Alcohol                                                                                   |
| 5. Perfume                                                                                             |
| 6. Silicon emulsion                                                                                    |
| 7. Hydrogenated castor oil, ethoxylated                                                                |
| 8. Lactic Acid                                                                                         |
| 9. Quaternary ammonium compounds, benzyl-C12-14-alkyldimethyl,<br>chlorides                            |
| 10. Benzisothiazolinone                                                                                |
| 11. Methylisothiazolinone                                                                              |
| 12. Butylphenyl Methylpropional                                                                        |
| 13. Alpha-Isomethyl Ionone                                                                             |
| 14. Coumarin                                                                                           |
| 15. Limonene                                                                                           |
