

INFORMATION SHEET FOR COSMETIC PRODUCT SAFETY FOR PROFESSIONAL USE

1. IDENTIFICATION OF THE PREPARATION AND THE COMPANY

1.1 IDENTIFICATION OF THE PREPARATION

- **Trade name:** KERALOCK HAAR-ENTFÄRBER KIT - 1 - DEPIGMENTIERUNGS-GEL
- **Name of the product:** DEPIGMENT GEL
- **Chemical name:** gelatinous paste consisting of alkalizing agents with excipients

1.2 USE OF THE PREPARATION

The product must only be used in the cosmetic field.

1.3 COMPANY IDENTIFICATION:

Oyster Cosmetics Spa
Via Don Barzizza 37 A
46043 Castiglione delle Stiviere (Mn) Italy

1.4 EMERGENCY TELEPHONE

+39 0376 636290

2. COMPOSITION/INFORMATION ON INGREDIENTS

2.1 INGREDIENTS

LIST OF INGREDIENTS SHOWN ON INDIVIDUAL PACKAGES and/or THE LABEL

3. IDENTIFICATION OF DANGERS

- **Classification:** The product is not classified as dangerous pursuant to reference regulations ((CE) 1907/2006 e (CE) 1272/2008).
- **Dangers related to the classification of the preparation (for man and the environment)**
Not relevant

Other known dangers:

READ THE WARNINGS SHOWN ON SINGLE PACKAGES WELL.

Dangers for man

Contact with eyes: irritating

Contact with skin/mucus membranes: irritating

Ingestion: mildly irritating

Inhalation: mildly irritating

4. FIRST AID

First aid immediate medical attention

Contact with eyes: remove contact lenses, if used, rinse thoroughly with plenty of water; if irritation persists, seek medical advice.

Contact with skin/mucous membranes: rinse thoroughly with plenty of water; if irritation persists, seek medical advice.

Ingestion: in case of ingestion of large quantities of product consult your nearest Poison Information Centre.

Inhalation: massive inhalation may irritate the upper respiratory tract; in poorly ventilated areas and with high concentration of water vapour, move the individual outside. For persistent irritating symptoms of the upper respiratory tract seek medical advice.

5. FIRE PREVENTION MEASURES

Suitable extinguishing media: water and powder

Extinguishing media which must not be used: n.a.

Special hazards of exposure arising from the preparation, combustion products or resulting gases: n.a.

Special protective equipment for fire-fighting personnel: normal ones in use

Other measures: n.a.

6. MEASURES IN CASE OF ACCIDENTAL RELEASE

Leaks or spills: collect the spilled product, cool and ventilate the areas, and put in suitable containers for disposal in accordance with regulations. Wash contaminated areas with water. Never return the spilled product to its original container. Do not reuse the spilled product

Personal protection: use suitable gloves and masks.

7. HANDLING AND STORAGE

7.1 HANDLING

The continuous occupational exposure to cleaning agents (soap, shampoo, liquid detergents) can cause a depletion of the hydrolipid layer and the stratum corneum, which form the natural barrier of the skin. The depletion of this barrier can be due to lesions of the skin, which is thus more exposed to external agents.

In these conditions, the handling of other products, used normally during the professional activity, conducted without the necessary precautions, can cause intolerance that in the long run could lead to more severe forms.

The work environment must be adequately ventilated, possibly with mechanical ventilation. The areas where emissions of vapours, gases, dusts, or spills of substances can occur will have to be separated, and equipped with local exhaust ventilation systems or collection systems.

One wants to refer to existing regulations, which regulate the use of cosmetics.

7.2 STORAGE

Optimal storage conditions: store in a dry and well ventilated area at temperatures above 5° away from flames, heat sources or electric equipment in operation

Precautions: n.a.

8. PERSONAL PROTECTION/EXPOSURE CONTROL

General precautions: CAREFULLY READ THE INSTRUCTIONS FOR USE THAT APPEAR ON THE LABEL.

In the specific case:

- during all stages of application, use elbow-length gloves for handling
- it is advisable to protect your hands with barrier cream
- use thoroughly cleaned work tools
- avoid nickel plated instruments
- avoid wearing jewellery items

8.1 EXPOSURE LIMIT VALUES: n.a.

9. PHYSICAL AND CHEMICAL PROPERTIES

9.1 GENERAL INFORMATION

Aspect: gel

Odour: characteristic ammonia

Color: transparent - white

9.2 IMPORTANT INFORMATION, ON HUMAN HEALTH, SAFETY AND THE ENVIRONMENT

- **Ph:** 9.00 <> 12.00
- **Boiling point/range:** n.a.
- **Flash point:** n.a.
- **Explosive properties:** n.a.
- **Oxidising properties:** n.a.
- **Viscosity:** < 100.000 cps
- **Evaporation speed:** n.a.

9.3 OTHER INFORMATION

- **Melting point:** < 90°C
- **Auto-ignition temperature:** n.a.
- **Flammability/explosive limits:** n.a.
- **Specific weight:** 0.920 <> 0.999 g/litre

10. STABILITY AND REACTIVITY

10.1 Conditions to avoid: n.a.

10.2 Materials to avoid: ferrous materials

10.3 Hazardous decomposition products: n.a.

11. TOXICOLOGICAL INFORMATION

11.1 Information on the preparation: product not subject to particular restrictions

11.2 Information on some raw materials and components of the preparation

- **Fragrances:** According to International Fragrance Association regulations
- **Dyes:** shown in annex III of the cosmetic law 713/86 as amended.

12. ECOLOGICAL INFORMATION

Use this product following the good practices of work.

Dispose of container following the specific instructions of the country of residence.

Just for Italian country, according to art. 14 of Law 319/76 "Regulations for the prevention of water pollution," updated to Law 650/79 and Circular no. 85 of 29 December 1976, the professional activities of hair salons, are qualified as civil settlements whose waste water may be released into the sewer system as such, provided they comply with the regulations issued by the local authorities who manage the public sewer.

13. DISPOSAL CONSIDERATIONS

- **Waste:** not hazardous waste not assimilated with the urban waste.
- **Used containers:** special waste not assimilated with the urban waste.

14. TRANSPORT INFORMATION

The preparation, which is classified as non-hazardous, is not subject to particular transport restrictions other than those laid down by the Highway Code and other codes or regulations applicable according to the method of transport chosen.

Specific regulations for the transport of dangerous goods

ADR (road transport/Directive 94/55/EC, as amended): Not subject

ADNR (inland waterways transport): Not subject

RID (rail transport/Directive 96/49/EC, as amended): Not subject

IMDG (sea transport) Not subject

ICAO/IATA (air transport) Not subject

15. REGULATORY INFORMATION

In accordance with the requirements of Regulation (CE) 1907/2006 and (CE) 1272/2008, the product is classified as follows:

- **EC Classification:** Non-hazardous product
- **Information included on the hazardous label:** Hazard label not provided
- **Chemical Inventory:** The components are present in EINECS (EC Inventory), CTFA (US inventory) and INCI (cosmetic products) / COSING
- **Please note:**

The product is fully compliant and specifically regulated by the rules on cosmetic products EC Regulation 1223/2009.

This is a product intended for the end user, the producer would be released of the obligation of preparing and issuing this safety data sheet.

All information and instructions contained in this data sheet are based on the current state of knowledge at the date indicated on the data sheet.

The chemical and physical characteristics of the product contained herein only describe the product from the point of view of safety and is not intended to guarantee any specific feature.

16. OTHER INFORMATION

- **List of risk phrases R (full text):** n.a.
- **Vocational Training (warnings):** the professional user has the obligation to inform the consumer regarding the message contained in the warnings and precautions, and contraindications, on the risk of any allergic reactions accurately reported on the individual product packaging.
- **Recommended restrictions:** keep out of reach of children.
- **References documents and/or technical contact points:** specific cosmetic dossier available at the headquarters of our company.
- **Source data used for the compilation of the data sheet:**

It is always the user's responsibility to comply with rules on hygiene, safety and environmental protection provided by applicable laws.

The information contained in this data sheet is intended as a description of the product's characteristics for safety purposes: they are not to be considered a guarantee of the properties of the product itself.
