

Product Data Sheet

Couple's Advent Calendar 2026

Contents, materials and ingredients

The following table lists the products included in the calendar and their approved materials or ingredients.

Product or component	Materials or ingredients
USB RECHARGEABLE BULLET VIBRATOR WITH REMOTE CONTROL	ABS plastic, Silicone button.
WOMANIZER TOY GEL (60ML / 2 FL OZ.)	Water, Glycerin, Hydroxyethylcellulos, Phenoxyethanol, Sodium Benzoate, Lactic acid.
FRESH SEX TOY WIPES (10 pieces)	Wipes: Nonwoven wood pulp fiber Ingredients: Aqua (Water), Propylene Glycol, Benzoic Acid, Phenoxyethanol, Aloe Barbandensis Leaf Extract, Hamamelis Virginiana Leaf Extract, Sodium Citrate, Citric Acid.
RABBIT VIBRATOR SLEEVE	Silicone.
BLINDFOLD	Polyester, Polyamide.
COUPLE'S COCK RING	Silicone.
CRYSTAL BUTT PLUG	Aluminium and Acrylic.
MINT ORGASM BALM (7G / 0.25 OZ.)	Prunus Amygdalus Dulcis (Sweet Almond) Oil, Vitis Vinifera (Grape) Seed Oil, Beeswax, Tridecyl Trimellitate, Butyrospermum Parkii (Shea Butter), Caprylic/Capric Triglyceride, Theobroma Cacao (Cocoa) Seed Butter, Menthol, Macadamia Ternifolia Seed Oil, Mentha Piperita (Peppermint) Oil, Tocopheryl Acetate, Propylparaben, Glycine Soja (Soybean) Oil, Tocopherol, Simmondsia Chinensis (Jojoba) Seed Oil, Persea Gratissima (Avocado) Oil, Isobornyl Acetate, Bisabolol, Phenoxyethanol, Triticum Vulgare (Wheat) Bran Extract, Chamomilla Recutita (Matricaria) Flower Extract, Fucus Vesiculosus Extract, Calendula Officinalis Flower Extract, Linoleic Acid
KEGEL BALLS	Silicone.
FINGER VIBRATOR SLEEVE	Silicone
WE-VIBE SYNC LITE	Silicone.
WRIST & ANKLE RESTRAINTS	Zinc alloy, Polyester, Polyamide, Neoprene.

Product or component	Materials or ingredients
ANAL BEADS	Silicone.
ORNAMENT	Glass.
NIPPLE SUCKERS	Silicone.
MINI WAND VIBRATOR SLEEVE	Silicone
MINI PADDLE	Polyester, Polyurethane, Copper.
CARD GAME	Card.
BEHIND BACK RESTRAINT	Zinc alloy, Polyester, Polyamide, Nylon.
G-/P-SPOT MASSAGER	Silicone.
VANILLA MASSAGE OIL (30ML / 1 FL OZ.)	Ethylhexyl Palmitate, Caprylic/Capric Triglyceride, Isopropyl Myristate, Parfum (Aroma).
STROKER	TPE.
G-SPOT DILDO	Silicone
ADJUSTABLE COCK RING	Silicone.
WOMANIZER LIBERTY 2	Silicone, ABS plastic.

Electrical and battery information

Bullet vibrator and remote control: Electrical Rating:

3.7V = 0.3A: Toy built-in li-ion rechargeable battery.

3.7V = 0.3A: Remote control built-in li-ion rechargeable battery.

5V = 1.0A: Toy when charged using USB charging device.

5V = 1.0A: Remote control when charged using USB charging device.

We-Vibe Sync Lite: Electrical Rating:

3.7V = 0.24A : Built-in li-ion rechargeable battery.

5V = 0.5A : When charged using USB Charging device.

Womanizer Liberty 2:

3.7V= 0.3A : Built-in li-ion rechargeable battery.

5V = 0.3A : When charged using USB Charging device.

Use USB AC adapter (not included) with power output corresponding to product rating.

Use original provided cable only.

Important safety information

Sold as a novelty product only. Not suitable for medical purposes. Only use the product for the intended purpose. Keep out of reach of children. If you are under a physician's care and/or have a condition requiring the use of any medical device, please consult your physician before using this product. Stop using the product immediately if you experience any skin irritations, pain or discomfort and consult your physician.

This product can be used by adults only. Persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge may only use the product if they have been given supervision or instruction concerning use of the product in a safe way and understand the hazards involved. Children shall not play with the product. Cleaning and user maintenance shall not be done by children. Do not use on swollen or inflamed areas of skin.

Remove piercings or jewellery in the genital area before use.

Unless otherwise specified, the product is not designed for anal use. Do not use anally!

Always clean the product before and after use according to the instructions given in the manual.

To avoid damage to the product, the product and its battery must not be exposed to temperatures above 45°C, be dismantled or mechanically or electrically damaged.

Sharing sex toys may transmit sexual diseases. Do not share your sex toys with users other than your partner. Use protective measures with your partner if necessary. Do not use the toy if you detect any cracks or signs of degradation in the cover material.

Store in a secure, dry place without exposure to direct sunlight.

We recommend using a water-based lubricant with your product. To prevent damage to the product, do not use perfumed, alcohol-based lubricants, gels or massage oils with the product. Do not use silicone-based lubricants with silicone products.

To prevent stains, do not place the soft side of your product on an absorbent surface.

Rechargeable products

Check the charging device and the product regularly for damage and do not use in any case of damage.

Magnetic fields can influence mechanical and electronic components such as pacemakers. Do not use the product directly over a pacemaker. Contact your physician for more information.

Keep cards with magnetic stripes (such as credit cards) away from the product, as they may be damaged by the product's magnet.

If your product appears to be functioning abnormally, turn it off and consult the support section on our website.

To guarantee a long battery life, please charge the product regularly, even if not in use.

Store in a secure, dry place without exposure to direct sunlight.

This product is not designed for anal use. Do not use anally!

We recommend using a water-based lubricant with your product. To prevent damage to the product, do not use perfumed, alcohol-based lubricants, gels or massage oils with the product. Do not use silicone-based lubricants with silicone products.

Before the first use of the charging device, check the local voltage level, since the local mains voltage may not exceed the maximum mains voltage given on the charging device.

The product must only be charged at an appropriate, extra-low voltage corresponding to the marking on the product.

Do not use or clean the product while the battery is charging.

Never immerse the charging device or charging cable in water or other fluids.

This product contains batteries that are non-replaceable.

This product contains a rechargeable Li-ion battery.

Disconnect the charging cable from the electrical supply each time after the product has been charged.

Wet goods

MINT ORGASM BALM 7G / 0.25OZ.

For external use only. Store at room temperature, away from heat and direct sunlight. Keep out of reach of children. Discontinue use if discomfort or irritation occurs. Avoid contact with eyes.

VANILLA MASSAGE OIL 30ML / 1 FL OZ.

Store in a cool dry place away from direct sunlight and out of reach of children. For external use only. Do not use on broken or inflamed skin. Discontinue use if discomfort or irritation occurs. Avoid contact with eyes.

WOMANIZER TOY GEL 60ML / 2 FL OZ.

For external use only. Not a contraceptive. Avoid contact with eyes. Latex condom friendly. Store in a cool dry place away from direct sunlight and out of reach of children. Discontinue use if discomfort or irritation occurs.

FRESH SEX TOY WIPES (10 WIPES)

Avoid contact with eyes. Compatible with all sex toys. Store in a cool dry place away from direct sunlight and out of reach of children. Discontinue use if discomfort or irritation occurs. Rinse toys and hands after use.

Penis rings

If you experience discomfort or pain during use while erect, discontinue sexual activity and avoid sexual arousal to allow your erection to subside before attempting removal. Removal of a penis ring while erect may cause bruising, painful injury or permanent damage to the penis, scrotum and/or testes.

Do not use the penis ring if you have decreased hand strength because this may make removal of the penis ring difficult.

Limit use of penis rings to a maximum of 30 minutes per use.

Prolonged use of the product (i.e. without removal) may cause permanent injury to the penis. Allow 60 minutes between each use.

It is not recommended to wear the product while doing sports. If you do, stop immediately if you feel pain or discomfort.

Do not wear the product during high-impact sports.

Please use precaution when intending to use multiple toys simultaneously.

Misuse of a penis ring may cause bruising, painful injury or permanent damage to the penis, scrotum and/or testes.

Discontinue use if genitals feel cold or you experience penile discomfort such as irritation, swelling, pain, discolouration or loss of sensation. Consult your physician if this does not subside once the penis ring has been removed.

Before use, consult your physician if you have any of the following health conditions: a blood clotting disorder, peripheral vascular disease, diabetes or a nerve disease. Do not use the penis ring before consulting your physician.

Penis rings do not prevent pregnancy or sexually transmitted infections.

Do not fall asleep while wearing a penis ring since prolonged use may cause permanent injury to the penis, scrotum and/or testes.

Do not use penis rings under the influence of alcohol or drugs, since such use may impair the user's judgement and increase the risk of injury.

Do not use penis rings if you have a decreased sensation of pain in any area of the penis, since this could influence your ability to detect possible injury.

If you have concerns regarding your health, don't be shy and consult your doctor before using this penis ring.

If you have symptoms of erectile dysfunction, for example the inability to achieve an erection that is sufficient for sexual intercourse, consult your physician prior to using this penis ring to avoid a potentially harmful delay in diagnosing any of the most common causes of this condition, such as diabetes, multiple sclerosis, cirrhosis of the liver, chronic renal failure or alcoholism.

The use of penis rings may aggravate already existing medical conditions such as Peyronie's disease (the formation of hardened tissue in the penis that causes pain, curvature and distortion, usually during erection); priapism (persistent, usually painful erection of the penis as a consequence of disease and not related to sexual arousal); and urethral strictures (a urethral stricture is an area of hardened tissue which narrows the urethra, sometimes making it difficult to urinate).

Use of a penis ring may bruise or rupture the blood vessels within the penis or scrotum, resulting in petechiae (a small purplish spot on a body surface, such as the skin or mucous membrane, caused by a

minute haemorrhage), or the formation of a hematoma (localised swelling filled with blood resulting from a break in a blood vessel).

Anal products

Before use, consult your physician if you have any of the following health conditions: a blood clotting disorder, peripheral vascular disease, nerve disease, rectal bleeding, active Crohn's disease or active Ulcerative Colitis (UC). If you experience any complications when using this device, discontinue use immediately and seek medical attention. If you have concerns regarding your health, don't be shy to consult your doctor before using this device.

Disinfect directly after each anal use.

Failure to sufficiently lubricate may cause tearing of the delicate skin lining the anus.

To prevent the transfer of bacteria, do not swap the product from the anus to the vagina without cleaning the toy with soap and water or toy cleaner first.

Misuse of anal stimulators/prostate massagers may cause bruising, painful injury or, in rare cases, permanent damage to the anus.

Do not use anal stimulators/prostate massagers under the influence of alcohol or drugs, since such use may impair the user's judgement and increase the risk of injury.

Do not use desensitising sprays or creams prior to insertion, as this will prohibit your pain sensors from responding.

Do not use the device if you have a decreased sensation of pain in the area of the anus, since this could hinder your ability to detect possible injury.

Do not attempt to insert the product completely into the anus. Should this occur, seek medical attention immediately. The perineum stimulator and/or base should sit comfortably outside of the body (if applicable).

Nipple suckers

Limit use to a maximum of 10 minutes per use. Prolonged use of the product (i.e. without removal) may cause permanent injury. Allow 30 minutes between each use. Never wear more than 30 minutes (in total) in 12 hours.

Bondage products

Follow these tips to ensure play is safe and fun for everyone involved:

- Never leave a restrained person unattended.
- During restraint play, always leave room to slide two fingers between cuffs/restraints and the wearer's skin.
- Only use products as intended and for no other use.
- If use of a product becomes distractingly painful or uncomfortable, stop immediately.
- Choose an easy-to-remember safe word in advance that either partner can use to indicate that they

want play to stop.

- To prevent stains, do not place your product on an absorbent surface if it becomes wet.

Battery disposal

Batteries and rechargeable batteries must not be disposed of in household waste. As an end user, you are legally required to return used batteries. Please use official collection facilities such as the collection points provided by public waste management authorities to do so. You can also return used batteries that we carry or have carried as new batteries to us. Please contact us at customercare@lovehoney.com. To prevent short circuits, the poles of lithium batteries should be taped before returning. For safety reasons, we ask you not to send the batteries to us by mail and refer you to the regulations for sending hazardous goods provided by mail carriers.

If the batteries are permanently installed in the product, please do not try to remove them yourself. This may cause permanent damage to the device. Your obligations as a customer are otherwise regulated by the WEEE Directive and the national implementation law.

Please observe the information in the manual and the safety instructions to prevent waste and littering.

Used batteries contain harmful substances that can damage the environment or your health if they are not stored or disposed of properly. In particular, this applies to the improper handling of lithium batteries. Batteries also contain important raw materials such as iron, zinc, manganese and nickel and can be recycled. Separate collection allows these raw materials to be recycled and prevents negative impacts on the environment and human health from released pollutants.

If the legal requirements are present, this sign means that the following symbols and their meaning must be used when labeling the batteries:

Hg: Battery contains more than 0.0005 percent mercury by mass

Pb: Battery contains more than 0.004 percent lead by mass

Cd: Battery contains more than 0.002 percent cadmium by mass

Electrical-equipment disposal

We would like to point out to owners of electrical equipment that old electrical equipment must be collected separately from municipal waste in accordance with applicable legal regulations. Batteries and accumulators that are not firmly encased in the old electrical equipment, as well as bulbs that can be removed from the equipment without being destroyed, must be separated from the old equipment in a non-destructive way before being given to a collection point for proper disposal. Please refer to the separate instructions for the disposal of batteries. The symbol of a crossed-out waste bin shown below and affixed to old electrical equipment also indicates that the equipment must be collected separately:

According to the WEEE Directive and the national implementation law, as distributors of electrical equipment, we are required to take back certain waste electrical equipment free of charge.

When you purchase a new electrical and electronic device, you can surrender an old electrical device that essentially performs the same functions as the new device to us free of charge. If your old electrical equipment is not larger than 25 centimeters in any dimension, you can also surrender it to us free of charge without purchasing a new device. Please contact us at customercare@lovehoney.com. We will then arrange the return of the old electrical equipment. For safety reasons, we would like to ask you to refrain from shipping lighting equipment (such as bulbs). Please use the collection points provided by public waste management authorities to return lighting equipment or contact us directly at the aforementioned e-mail address.

You can also return old electrical equipment to any of the collection points run by the public waste disposal authorities. You are making an important contribution to the reuse, recycling and other recovery of old appliances by sending your old electrical equipment for separate collection in the proper collection groups.

As the end user, you are responsible for deleting personal data from the used electrical equipment before handing it in for disposal.

Please observe the information in the manual and safety instructions to prevent waste, and please check for possible repair options.

Manufacturer and contact information

Manufactured for: Lovehoney Ltd., 100 Locksbrook Road, Bath, BA1 3EN, UK

EU RP: Wow TECH Europe GmbH, Hermann-Blankenstein-Straße 5, 10249, Berlin, Germany

Made in China

Website: www.lovehoney.com

Customer care: customercareteam@lovehoneygroup.com

For complete operating instructions and safety information, refer to the product manuals supplied with the calendar.
